

**TURBO DYNAMICS**

*Where Quality Is Without Compromise*

## **BMW 335i Hybrid Twin Turbos**

**PART NO - Various**  
**ENGINE- 3.0 Litre N54**  
**APPLICATION- BMW 135i, 335i & 535i petrol**

### **Stage 1 - £750.00 + VAT each to overhaul existing units or £1995.00 + VAT for new units**

**MD528 & 529** *Specially modified compressor wheels fitted. Compressor cover profile re-profiled to suit replacement compressor wheels. Exhaust wheels lightened and modified to help reduce backpressure. Turbochargers fully blueprinted. Wastegate repairs can also be carried out if required (extra charge)*

**Estimated Power Output:- A conservative 50-60 bhp should be achievable from these units with correct mapping.**

### **Stage 2 – £1695.00 + VAT each to overhaul existing units or £2995.00 + VAT for new units**

**MD535 & 536** *Replacement Core Assembly retrofitted into heavily modified existing housings. Larger compressor wheels fitted. Larger exhaust wheels fitted. Existing compressor cover and turbine housing profiles modified and re-profiled to suit new wheels. Turbochargers fully blueprinted. Wastegate repairs can also be carried out if required (extra charge)*

*\*\*\* Please note these units will require replacement oil and water lines to fit (also in development) and modifications to the intercooler / intake pipework will be required. \*\*\**

**Estimated Power Output:- An estimated 100+ bhp should be achievable from these units with correct mapping**
