## Keith Cowie Sets New World Record In His Road Legal Drag Car

Turbo Dynamics customer, Keith Cowie has been determined to set a new world record in his TD turbocharged and RB Motorsport tuned Nissan Skyline R32 GTR, which boasts an impressive 1250 BHP Garrett GT series spec single turbo. Set in Japan, the world record of 0-300 KPH (0-187.5 MPH) in just 13.1secs has stood for many years.

However, on Sunday at TOTB VI in Elvington, Cowie did just that. Time recording was done by means of satellite to give a more reliable reading and Cowie's proven results were a fantastic 12.47secs. Smashing the previous record by 0.63secs! Understated as ever, Cowie smiled and said, "I've done it".

Further stats from the data logging show that Cowie achieved 0-60MPH in 2.5secs, 0-100MPH in 4.35secs, 0-150MPH in 8.09secs and 0-200MPH in 14.75secs all in the space of half a mile.

## TURBO DYNAMICS

*Where Quality Is Without Compromise*

Peter Marsh of Turbo Dynamics said, "We've been working closely with Keith and RB Motorsport to develop the Skyline and we are delighted that he has now achieved his goal, breaking the world record. It is a fantastic feat and leaves me to wonder what he'll set out to achieve next!"
