## Santa Pod Raceway's JapShow

The JapShow at Turbo Dynamics sponsored, Santa Pod Raceway is the first event at the Raceway exclusively for fans of Japanese Cars in 2008, and takes place on Sunday, 22<sup>nd</sup> June. Like all events at Santa Pod, the focus is on the dragstrip, but there's plenty going on to suit all tastes and the event is increasingly becoming the place to be for club get-togethers and weekend camping.

This year's show once again hosts the HKS Drag Series - Round 2 with the top Jap Drag cars in Europe doing battle on the dragstrip. The HKS Drag Series produced some great racing at Round 1 in May, and with larger fields and more track time at the JapShow, it's reasonable to expect great things to take place; will we see the first 7-second run by a Jap car and if so, who will run it? Perhaps we'll witness the first 9-second run by a Front Wheel Drive car!

Sharing the track with the heroes of the Japanese tuning scene will be the general public in the Run What Ya Brung competition, which is open to anyone with a driving licence and Jap car, from Starlets to Skylines!

**Drifting at Turbo Dynamics sponsored, Santa Pod Raceway**

Off track, the club stands will take up a massive portion of the site and are well worth a look. There is of course the official Show & Shine as well, where you'll see top show cars and feature cars competing for the JapShow trophies.

For those that like a bit of hard cornering, there are also separate tracks for handling (open to the public and free of charge) and drifting, where almost non-stop demo sessions will be taking place throughout the day by some of the UK's top drifters.

The official JapShow website ([www.JapShow.com](http://www.JapShow.com)) contains details on how to get involved in every part of the show and it's also the place to find links to information on the HKS Drag Series and where to buy tickets.
